

**Product Design Intern**  
Full-Time Summer Internship  
Term: May 9<sup>th</sup>, 2022 - August 12<sup>th</sup>, 2022

Inkblot is on a mission to improve the mental health of individuals and organizations by creating innovative and accessible solutions. We are a Toronto-based company focusing on secure video counselling. With Inkblot, individuals can get the help they need when they need it. Uniquely, Inkblot monitors clinical effectiveness and client satisfaction session-to-session. As a company, we're proud of the stability and support that we've provided Canadian and US individuals during these difficult times, from the pandemic to social justice issues. Inkblot has created an engaging and collaborative virtual team environment that is purpose-driven, inclusive and fast-paced.

This internship is being offered as a part of [The Good & Well Internship Program](#). Throughout our summer internship program, Good & Well provides participants with opportunities to work with dynamic, high-potential social ventures as well as to learn from and network with professionals working within the social impact ecosystem in Toronto.

**ABOUT THIS ROLE:**

As the Product Design Intern, you will work closely with our Quality Assurance Engineer and the entire Product team to execute software QA testing to help debug issues and ensure product quality. This opportunity is ideal for candidates interested in product management, development, or quality assurance. You will be part of the agile software development cycle by participating in various sprint ceremonies, such as sprint planning sessions, sprint kick-offs, and retrospectives. Through this internship, you will be developing skills required for working at any product-driven organization.

**JOB DUTIES**

- Assisting the Product Design team where required across the full spectrum of Inkblot Products
- Continued self-guided learning and development in areas where the designer feels less strong
- Work closely with our Senior Designers giving them opportunities to Mentor you through demos, tasks, and learning-focused assignments
- Work with the no-code design & marketing team to complete design deliverables

**MUST-HAVES**

- A strong understanding of Figma and a willingness to master the software while in the Internship
- Self-directed learner
- An understanding and previous application of design-thinking methodologies and outputs (i.e., Design Sprints, user testing, wireframing, prototyping). Student work is acceptable.

**GOOD-TO-HAVES**

- Knowledge of mobile application testing
- Knowledge of Database and Object-oriented Programming concepts

#### OTHER DETAILS
